

## **Rules and Regulations for night time investigations:**

Please wrap up your investigation and have all your equipment packed and out of the building no later than 3:00 a.m.

Our Hotel and High School should be treated with the utmost respect. These are integral pieces of Goldfield History. We believe that the beings who remain should be treated the same.

There will be no alcohol or drug use during an investigation. No seances or ouija boards are allowed. We believe that your attitude towards the ghosts will predict the nature and quality of your contact. Please keep your experience positive and respectful.

If, for any reason, a tour guide becomes uncomfortable with an investigation, we reserve the right to end it immediately. There will be no refunds on tours that have already begun but ended prematurely.

Examples include but are not limited to: Irreverent and/or taunting behavior; action that could result in damage or defacement to the building; or aggressive or violent action by the departed.
